Taejae University's entire curriculum is thoughtfully constructed to build upon the coursework and experiences of previous semesters. After completing Taejae's Innovation Foundations' courseworks in the first year, previous credits up to 12 units for the major courses completed in your current university may be transferred upon the approval of the academic council. With Taejae University's full scholarship on top of our top-notch education approach, joining Taejae will reward already spent years at other institutions and the education effect will last throughout the lifetime.
